

OUTDOORS

SPACE

Performance space for outdoor show requires a minimum diameter of 20 feet. Please take into account space for attending audience. An additional 10 feet is good. This allows room for people to gather as well as pass behind the crowd. A total space of 60 feet by 60 feet is ideal. If location is a semicircle 20 feet is still necessary for the performance space.

SPECIFICATIONS FOR LADDER ACT

The surface should be hard (pavement, wood, stone, etc.) and smooth. A minimum diameter of 4 feet at the center of the performance space should be free from cracks or bumps.

A maximum gradient of 5° is acceptable.

SOUND

Performer travels with an AER Compact 60 portable, battery powered amplifier. If the performance venue has loud ambient noise (generators, music, crowds, etc.) a larger, stereo amplifier should be provided. Is the stereo to have separate music and voice tracks. You should clarify this.

Performer travels with a transmitter / receiver and XLR, RCA, and ¼ inch jacks.

INDOORS

STAGE

Stairs from stage to house is necessary for performer and audience volunteers.

SPECIFICATIONS FOR LADDER ACT

Minimum stage size of 16 feet wide by 16 feet deep. It is possible to play the diagonal. The surface should be hard (wood, stone, etc.) and uncarpeted. A Marley surface is fine. The ladder has rubber feet that will not damage the floor. Minimum vertical clearance of 14 feet required for 8-foot ladder. If this is not possible please contact the performer to make arrangements.

LIGHT PLOT

Bright general front wash.
Back and side light whenever possible.
Follow spot (when appropriate).
Houselights to come up when performer is in audience.

SOUND

Performer travels with a Sennheiser G2 series and TRAM lavalier microphone. Both the transmitter and receiver are battery powered. XLR, RCA, and ¼ inch jacks are provided if necessary.

A 5-minute music track is played several minutes into the performance. The performer travels with Minidisk, CD, cassette, iPod, and mp3

Levels set at a sound check.

DRESSING ROOM

Counter or table with a chair and mirror.
Clothes hooks or rack with hangers.
32 oz. bottled water.

PROPS

Unsupported ladder and all other props are provided by the artist.

DIRECTIONS

Please send no later than two weeks prior to date:

Floor plan of theater with stage height, height of grid above stage floor, and seating areas.

Name and phone number of technical director.

Anything special I need to know about your venue, such as where to park, location of loading dock, etc.

If you anticipate any problems please contact the performer. The performance has taken place in many different circumstances and most likely something can be arranged.
